MERCHANT ONLINE

Merchant Online is an innovative online self-service platform which is available to PPS members who have taken out one of the available Payment Solutions. This free service is available 24/7 and gives members access to all of the transaction data that has taken place through any of the available Payment Solutions for any trading date, whether you're running single or multiple businesses.

- Merchants can view data and statements in multiple formats and reports are also available.
- A view of historical payments, statements and provisional transaction data aids efficient reconciliation.
- Merchants log on to the Standard Bank Merchant Online system from any chosen location at any time using their secure login credentials.
- Merchants can set up multiple users on the system, as and when required, and set access limits for different users.
- Merchant Online is compatible with leading web browsers, including Internet Explorer, Firefox and Google Chrome.
