CASE STUDY

STUDENT TO FULL MEMBERSHIP

INTRODUCTION:

The PPS Sickness and Permanent Incapacity (SPPI) benefit is available to students in their fourth or Honour's year of study and beyond. Once qualified, they may upgrade to full membership and increase their benefits to align with their salary. The PPS SPPI benefit give members peace of mind to know that should they be unable to work due to an illness or injury, they will be covered.

SITUATION:

Peter, a 29-year old physiotherapist working in private practice, contracted a serious illness. He was booked off ill for 14 days by his treating doctor. As Peter works for a private practice, he only gets paid for the time that he works. While being booked off for two weeks, Peter did not earn his full income during that time.

SOLUTION:

Luckily for Peter, in 2018, the partner of the practice referred his financial adviser to him. Peter was familiar with PPS, as he had taken out student benefits back in 2014. The financial adviser helped Peter to update his benefits to cover his full income, at 100% net of tax. Although Peter believed that he was healthy and did not need much insurance, he nonetheless took the adviser's advice and upgraded his benefits. Little did he know that in less than two years, he would be submitting a claim for his period of illness.

BENEFIT:

By protecting his income while he was still young and healthy, Peter had peace of mind while ill that his income would be covered. This allowed him to focus his energy on recovering. Peter stayed at home for two weeks and submitted his sickness claim. PPS paid his benefit in no time. Peter was relieved that he had taken the advice of his adviser and increased his benefits.

RESULT:

Peter's advice to young people is, "Young people have the notion that they are immune to life events that can threaten their livelihood and future wellbeing. They take for granted the benefits of having risk insurance that protects them against life events that threaten their future. My experience has taught me that it is never too soon to have the right type of insurance in place.

PPS EMBRACES THE ETHOS OF MUTUALITY

Which means we allocate 100% of our profits to our qualifying members into their PPS Profit-Share Accounts™. This means that your Profit-Share allocation grows (depending on products and level of cover) and is ready to supplement your savings upon retirement.*
