

PPS PROFESSIONAL DISABILITY PROVIDER™

**You don't choose a disability,
but you can choose how you
are covered.**

This cover is designed to pay out a tax-free lump sum should you become disabled.

WHY YOU SHOULD GET THIS COVER

The PPS Professional Disability Provider™ offers you two options to cover disability-related conditions and the impact thereof.

The Occupational Disability Provider covers you for a disability that renders you unable to carry out your own or other similar professions due to injury, illness or an accident. This cover is for total impairment and 100% of the benefit is paid out.

The Functional Disability Provider covers you for an illness or injury that affects your ability to perform your day-to-day functions, even if you are still able to perform your professional duties. Based on the impact of the disability the benefit will pay 25%, 50%, 75% or 100% of the benefit amount.

WHAT IS THE BENEFIT TO YOU?

- Having both educational and functional disability benefits provides you with more comprehensive cover, which means greater peace of mind as you have more options in your time of need.
- If you have both the occupational and functional disability benefits, your claim assessment will first be against your ability to perform your occupation. If no claim is payable under this definition, then the claim will be assessed against the functional disability criteria.
- Should you be covered for both occupational and functional disability, you will receive the SYNC discount, reducing your total premium.
- Your benefits increase annually to keep up with inflation.
