

Invest in yourself. Invest with each other. Build your family's wealth.

The PPS Investments *Family* *Network*

Welcome to the PPS Investments Family Network, where you can connect your family members' investments to benefit from reduced family administration fees. So, the more you invest as a family, the more you could save on administration fees.

How to create a Family Network

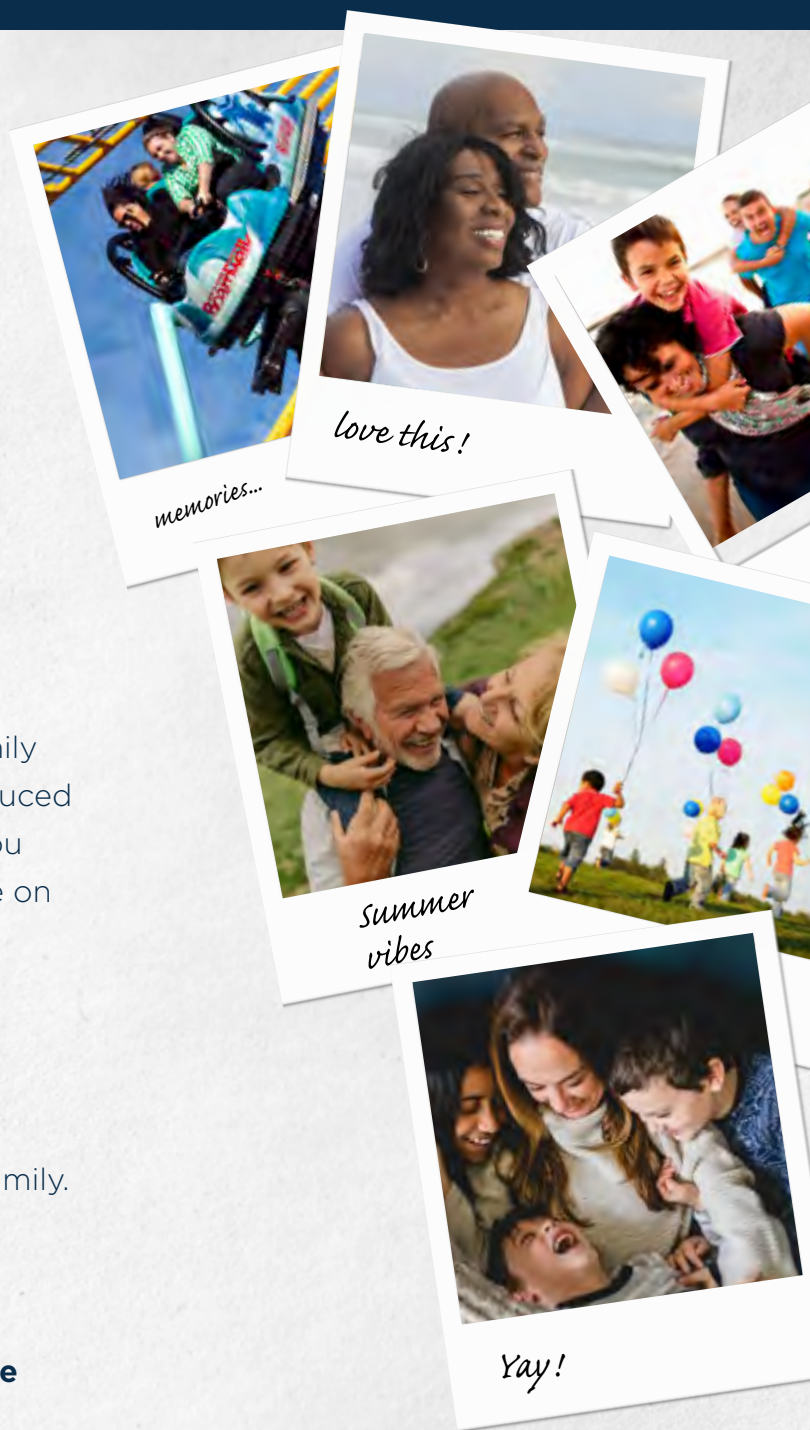

Visit the Family Network play-zone [here](#) to determine the best structure for your family.

In the Family Network play-zone, you can:

- **Start adding family members to create your Family Network**
- **Determine the possible family administration fee based on the estimated family market value**

When you're comfortable with your family structure, [login](#) to the PPS Investments Secure Site to create and activate your Family Network.

If you're not a registered user, simply click 'register' and follow the prompts to create a profile.

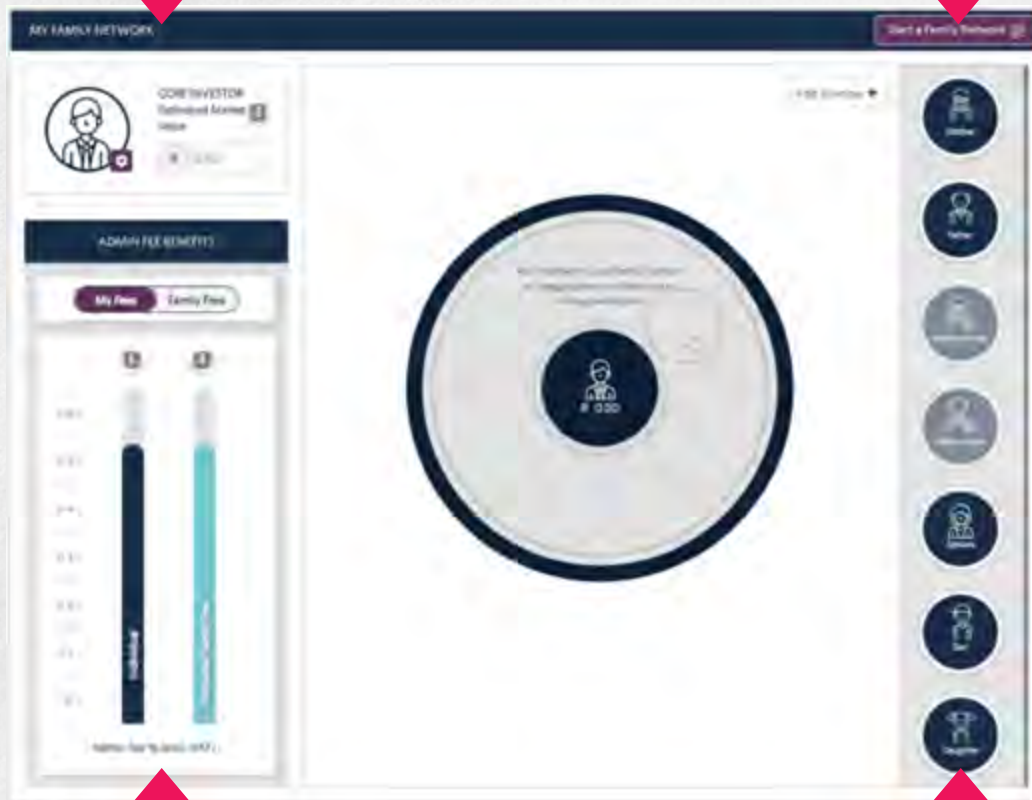

Core investor

As the core investor, your market value will be inserted here.

Start a Family Network

When you're comfortable with your Family Network structure, click on 'Start a Family Network'. You'll be prompted to login to the PPS Investments Secure Site to activate your Family Network and send invitations to connect. It's up to you to encourage them to accept the invitation.

Administration fee benefits

Get an overview of the individual and family administration fees that could be applied to your family network based on the estimated family market value. The more you save as a family, the more you could save on family administration fees.

Add/remove family members

You can start adding family members to create your Family Network. Drag & drop family members using the icons on the right-hand side or click on 'Add Member'. All family members' investments have to be on the PPS Investments platform to qualify for the reduced administration fee.
